## RESOLUTION

Condemning the use of hunger as a weapon of war and recognizing the effect of conflict on global food security and famine.

Whereas, in 2020, ~~155,000,000~~ people experienced crisis levels of food insecurity (Integrated Food Security Phase Classification phase 3 or above), with nearly ~~100,000,000~~ people living in environments where conflict was the main driver of hunger, and the COVID-19 pandemic has worsened rising global food insecurity;

Whereas conflict acutely impacts vulnerable populations such as women and children, persons with disabilities, refugees, and internally displaced persons;

Whereas armed conflict impacts on food security can be direct, such as displacement from land, destruction of livestock grazing areas and fishing grounds, or destruction of food stocks and agricultural assets, or indirect, such as disruptions to food systems, leading to increased food prices or decreased household purchasing power, or decreased access to supplies that are necessary for food preparation, including water and fuel;

Whereas conflict disrupts the distribution and buying and selling of food within a food system due to a shortage of produce, risk, or perceived risk of travel, the formation of illegal distribution channels and markets, and the breakdown of a government's ability to enforce regulations or perform its judiciary functions;

Whereas aerial bombing campaigns targeting agricultural heartlands, scorched earth methods of warfare, and the use of landmines and other explosive devices have direct impacts on the ability of vulnerable populations to feed themselves;

Whereas effective humanitarian response in armed conflict, including in the threat of conflict-induced famine and food insecurity in situations of armed conflict, requires respect for international humanitarian law by all parties to the conflict, and allowing and facilitating the rapid and unimpeded movement of humanitarian relief to all those in need;

Whereas efforts to restrict humanitarian aid and the operational integrity and impartiality of humanitarian aid

works and distribution efforts, including through blockades, security impediments, or irregular bureaucratic requirements is another means by which combatants employ starvation and food deprivation as a weapon of war; and

Whereas the United States Government has the tools to fight global hunger, protect lifesaving assistance, and promote the prevention of conflict, including through the Global Fragility Act of 2019 (title V of division J of Public Law 116–94), the Global Food Security Act of 2016 (Public Law 114–195), and the Agriculture Improvement Act of 2018 (Public Law 115–334), and has the potential to hold accountable those using hunger as a weapon of war through the Global Magnitsky Human Rights Accountability Act (subtitle F of title XII of Public Law 114–328); Now, therefore, be it

*Whereas, in 2020, an estimated 155,000,000 people experienced crisis levels of food insecurity (Integrated Food Security Phase Classification phase 3 or above), with nearly 100,000,000 people living in environments where conflict was the main driver of hunger, and the COVID–19 pandemic has exacerbated rising levels of global food insecurity;*

*Whereas conflict acutely impacts vulnerable populations such as women and children, persons with disabilities, refugees, and internally displaced persons;*

*Whereas the impacts of conflict on food security can be direct, such as displacement from land, destruction of livestock grazing areas and fishing grounds, or destruction of food stocks and agricultural assets, or indirect, such as disruptions to food systems, leading to increased food prices or decreased household purchasing power, or decreased access*

*to supplies that are necessary for food production and preparation, including agricultural inputs, water, and fuel;*

*Whereas conflict disrupts the distribution and buying and selling of food within a food system, including by creating shortages in production, increasing real and perceived risks for travel and transport, enabling the formation of illegal distribution channels and markets, and contributing to the breakdown of a government's ability to enforce regulations or perform its judiciary functions;*

*Whereas aerial bombing campaigns targeting agricultural heartlands, and the use of scorched earth methods of warfare, landmines, and other explosive devices have direct impacts on the ability of vulnerable populations to feed themselves;*

*Whereas effective humanitarian response in conflict, including in response to the threat of conflict-induced famine and food insecurity, requires respect for international humanitarian law by all parties to such conflict, and allowing and facilitating the rapid and unimpeded movement of humanitarian relief to all those in need;*

*Whereas efforts to restrict humanitarian aid and the operational integrity and impartiality of humanitarian aid works and distribution efforts, including through the imposition of blockades, security impediments, or irregular bureaucratic requirements, are another means by which combatants employ starvation and food deprivation as a weapon of war; and*

*Whereas the United States Government has multiple tools to fight global hunger, protect lifesaving assistance, and promote the prevention of conflict, including through the Glob-*

*al Fragility Act of 2019 (title V of division J of Public Law 116–94), the Global Food Security Act of 2016 (Public Law 114–195), and the Agriculture Improvement Act of 2018 (Public Law 115–334), and has the potential to hold accountable those using hunger as a weapon of war through the Global Magnitsky Human Rights Accountability Act (subtitle F of title XII of Public Law 114–328): Now, therefore, be it*

1       *Resolved,*

2       That the Senate—

3           (1) condemns the use of hunger as a weapon of  
4       war through the—

5               (A) starvation of civilians;

6               (B) intentional and reckless destruction,  
7       removing, looting, or rendering useless objects  
8       necessary for food production and distribution  
9       such as farmland, markets, mills, food pro-  
10      cessing and storage areas, foodstuffs, crops, live-  
11      stock, agricultural assets, waterways, water sys-  
12      tems, drinking water installations and supplies,  
13      and irrigation works;

14               (C) denial of humanitarian access and the  
15      deprivation of objects indispensable to people's  
16      survival, such as food supplies and nutrition re-  
17      sources; and

18               (D) willful interruption of market systems  
19      to affected populations in need in conflict envi-

1 ronments by preventing travel and manipulating  
2 currency exchange; and

3 (2) calls on the United States Government to—

4 (A) prioritize diplomatic efforts to call out  
5 and address instances where hunger and inten-  
6 tional deprivation of food is being utilized as a  
7 weapon of war, including efforts to ensure that  
8 security operations do not undermine livelihoods  
9 of local populations to minimize civilian harm;

10 (B) continue efforts to address severe food  
11 insecurity through humanitarian response ef-  
12 forts, including in-kind food assistance, vouch-  
13 ers, and other flexible modalities;

14 (C) ensure existing interagency strategies,  
15 crisis response efforts, and ongoing programs  
16 consider, integrate, and adapt to address con-  
17 flict by utilizing crisis modifiers in United  
18 States Agency for International Development  
19 programming to respond to rapid shocks and  
20 stress such as the willful targeting of food sys-  
21 tems; and

22 (D) ensure that the use of hunger as a  
23 weapon of war is considered within the employ-  
24 ment of tools to hold individuals, governments,  
25 militias, or entities responsible such as the

1           Global Magnitsky Human Rights Accountability  
2           Act (22 U.S.C. 2656), where appropriate, and  
3           taking into consideration the need for humani-  
4           tarian exemptions and the protection of life-  
5           saving assistance.
